

COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE AT THE CONCLUSION OF THE AUDIT

Board of Education
Cayuga-Onondaga BOCES
Auburn, New York

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Cayuga-Onondaga BOCES (BOCES) for the year ended June 30, 2020. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 30, 2020. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by BOCES are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by BOCES during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the BOCES' financial statements were: other postemployment benefits obligation, accumulated depreciation, and pension obligations.

Management's estimates of other postemployment benefits obligation, accumulated depreciation, and pension obligations are based on various assumptions. Accumulated depreciation estimates are based on the historical cost of assets and their estimated useful lives; pension obligations are based on BOCES' proportionate share of the NYS Retirement System Plan Asset/Liability; and other postemployment benefits obligation estimates are based on actuarial calculations. We evaluated the key factors and assumptions used to develop the other postemployment benefit liabilities, pension, and accumulated depreciation estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures were:

The disclosures of capital assets, pension obligations, other postemployment benefits obligations, and fund balance, the details of which are presented in Notes 5, 8, 9, and 11, of the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements, other than those that are trivial, detected as a result of audit procedures.

Disagreements With Management

For purposes of this letter, a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 29, 2020.

Management Consultations With Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to BOCES' financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to Management's Discussion and Analysis, budgetary comparison information, the Schedule of Changes in BOCES' Total OPEB Liability and Related Ratios, the Schedules of BOCES' Contributions - NYSLRS and NYSTRS Pension Plans, and the Schedules of BOCES' Proportionate Share of the Net Pension Asset/Liability, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the Analysis of Account A431 School Districts and the Schedule of General Fund Revenues and Expenditures Compared to Budget which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use

This information is intended solely for the use of the Audit Committee, the Board of Education, and management of Cayuga-Onondaga BOCES, and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully submitted,
